

## **Blood To Me**

You are my treasure, my comfort, my home  
I will always need you even when I'm grown  
When I'm with you I feel safe  
In your arms, in every embrace

**Blood is family you see  
Not all family is blood to me  
Blood is beautiful and messy  
Blood is more than what runs through me  
Some are given and some you choose  
But neither are people I could ever lose  
Blood is family you see  
Not all family is blood to me**

If I ever feel like I am on my own  
I think of you to know I'm not alone  
When I look in the mirror I see you in me  
From my eyes and my smile  
To the dimples on my cheeks

## **REPEAT CHORUS**

Family is laughter and love and care  
It's having moments and memories we'll always share  
Through highs and lows we stand hand in hand  
The bond we have, an unbreakable strand

**Blood is family you see  
Not all family is blood to me  
Blood is family you see  
Not all family is blood to me  
Blood is beautiful and messy  
Blood is more than what runs through me  
Heartbeats together make a timeless song  
In your love I am anchored where I belong  
Blood is family you see  
Not all family is blood to me**
