

## **Family**

The heart of our home, where laughter lives  
Through all of the chaos, it's love that gives  
A shoulder to lean on, a hand to hold  
Stories shared, both new and old

**Through ups and downs, we stand as one  
No matter the storm, we've already won  
In every heartbeat, in every sigh  
Family's the reason we search for the sky**

In simple meals and quiet nights  
Shared whispers and joyful delights  
Family's a bond that time can't sever  
A tapestry woven, together forever

**Through ups and downs, we stand as one  
No matter the storm, we've already won  
In every heartbeat, in every sigh  
Family's the reason we search for the sky**

Roots deep, you keep me grounded  
You and me, don't ever doubt it  
Roots deep, you keep me grounded  
You and me, don't ever doubt it

**Through ups and downs, we stand as one  
No matter the storm, we've already won  
In every heartbeat, in every sigh  
Family's the reason we search for the sky**
